## Solution Quiz #1

CS - F

- 2.5 Step 1:  $\epsilon, \lambda, ab, ba$  are in language  $L$
- 5 Step 2: IF  $x$  is in  $L$ , the  $axb, bxa$  are also in  $L$
- 2.5 Step 3: No strings except those constructed in above, are allowed to be in  $L$ .

|     |          |        |
|-----|----------|--------|
|     |          | $abab$ |
|     | $bbaaab$ | $x$    |
|     | $x$      | $x$    |
| $x$ |          |        |
| $x$ |          |        |
