

Quiz: 02

see A.

1) RD of odd numbers.

Base-Case : 1 is odd.

Step: 02 : if s is odd then $s-2$, $s+2$ and $s*t$ are odd if t is odd.

Step: 03 : no integers other than those defined above can be in the language.

2. RE doesn't contain 100.

$$0^* (01 + 1)^* (0 + \lambda)$$
