

Section - G

Quiz - 2

1) Recursive Definition start & end with same letter.

Base-Case

let a, b are in the language.

Step: 2.

if x belongs to language $\Sigma(a, b)$ then axb and bxb will also belong to the same language.

Step: 03

No other strings apart from the ones defined above can be in the language.

2) RE doesn't contain "0010"

$$(1 + 01 + 1010 + 00^*11^+)^* (0^* + 1^* + \lambda)$$
