INSTITUTION FAST School of Computing, National University of Computer and Emerging Sciences, Islamabad Campus

BS-CS: Fall-2023

PROGRAM TO BE EVALUATED

Course Description

Course Code	SS-1012	
Course Title	Functional English	
Credit Hours	2	
Course Instructors	Sanaa Ilyas, Amna Hafeez, Rafia Zafar	
Grading Policy	Absolute Grading	
Policy about missed assessment items in the course	Retake of missed assessment items (other than sessional/ final exam) will not be held. Student who misses an assessment item (other than sessional / final exam) is awarded zero marks in that assessment item i.e., late submission will not be accepted. For missed sessional/ final exam, exam retake/ pre-take application along with necessary evidence are required to be submitted to the department secretary. The examination assessment and retake committee decides the exam retake/ pre-take cases.	
Course Plagiarism Policy	Plagiarism in project or sessional/ final exam will result in F grade in the course. Plagiarism in an assignment will result in zero marks in the whole assignments category.	
Prerequisites by Course(s) or Topics	None	
Assessment Instruments with Weights (homeworks, quizzes, sessional exams, final exam, assignments, etc.)	Assessment with the weight.	
	Assessment Type	Weight
	Assignments (3)	10 (4+2+4)
	Quizzes (5)	15
	Sessional I	10
	Sessional II	10
	Project	10
	Final Exam	45
Course Coordinator	Sanaa Ilyas	
URL (if any)		
Course Catalog Description	Functional English is a comprehensive language course designed to equip learners with the essential skills needed to communicate effectively in different contexts. This course places a strong emphasis on integrating all four language skills: reading, writing, listening,	

	and speaking, while fostering the development of critical thinking abilities to navigate the intricacies of complex global discourses. Through engaging and interactive learning experiences, Functional English empowers students to become confident and competent users of the English language in both personal and professional contexts. The course is structured to address the diverse needs of learners, whether they are aiming to enhance their academic performance, improve workplace communication, or simply become more proficient in English for day-to-day interactions.
Textbook	Course Pack and Digital Resources (shared on Google Classroom)
Reference Material	1. Guide to College Reading by Kathleen T. McWhorter, 11th Edition 2. Communicate (14th ed) Kathleen S. Verderber, Deanna D. Sellnow, Rudolph F. Verderber 3. Human Communication, 6th ed. Judy Pearson, Paul E Nelson, Angela Hosek
Course Goals	A. Course Learning Outcomes (CLOs) Upon successful completion of this course, students should be able to: 1. Identify the main idea (s) in the text, distinguish facts from opinions, guess meanings of unfamiliar words from context, and make inferences based on comprehension of a text. 2. Understand and apply the key principles of communication, knowledge of the basic elements of the communication model, and considerations of effective communication channels used to a specific situation. 3. Create and deliver impactful presentations keeping in view the audience, purpose, organization, body language and tone. 4. Demonstrate effective use of key communication techniques of active listening. 5. Hone speaking skills and correct pronunciation to communicate in different contexts.

B. Program Learning Outcomes (PLOs)		
PLO 1	Computing Knowledge	Apply knowledge of mathematics, natural sciences, computing fundamentals, and a computing specialization to the solution of complex computing problems.
PLO 2	Problem Analysis	Identify, formulate, research literature, and analyze complex computing problems, reaching substantiated conclusions using first principles of mathematics, natural sciences, and computing sciences.
PLO 3	Design/Develop Solutions	Design solutions for complex computing problems and design systems, components, and processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.
PLO 4	Investigation & Experimentation	Conduct investigation of complex computing problems using research based knowledge and research based methods
PLO 5	Modern Tool Usage	Create, select, and apply appropriate techniques, resources and modern computing tools, including prediction and modelling for complex computing problems.
PLO 6	Society Responsibility	Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal, and cultural issues relevant to context of complex computing problems.
PLO 7	Environment and Sustainability	Understand and evaluate sustainability and impact of professional computing work in the solution of complex computing problems
PLO 8	Ethics	Apply ethical principles and commit to professional ethics and responsibilities and norms of computing practice.
PLO 9	Individual and Team Work	Function effectively as an individual, and as a member or leader in diverse teams and in multi-disciplinary settings.
PLO 10	Communication	Communicate effectively on complex computing activities with the computing community and with society at large.
PLO 11	Project Management and Finance	Demonstrate knowledge and understanding of management principles and economic decision making and apply these to one's own work as a member or a team.
PLO 12	Life Long Learning	Recognize the need for, and have the preparation and ability to engage in independent and life-long

		learning in the broadest context of technological changes.												
C. Mapping of CLOs to PLOs (CLO: Course Learning Outcome, PLOs: Program Learning Outcomes)														
		PLOs

	6									✓				

Topics to be covered:			
List of Topics	No. of Weeks	Contact Hours	CLO(s)
Communication Process	1	2	
Common Sentence Errors	2	4	
Verbal & Non-Verbal Communication	2	4	
Opinion Writing	2	4	
Reading Skills	2	4	
Critical Reading Skills	2	4	
Presentation Skills	3	6	
Vocabulary Development	1	2	
Total	15	30	

Programming Language for Assignments				
Class Time Spent (in percentage)	Theory	Problem Analysis	Solution Design	Social and Ethical Issues
	45	25	25	5
Oral and Written Communication	Every student must complete a total of 8 quizzes/assignments. and deliver 01 project presentation as part of the course requirements.			

Weeks	Contents/Topics	Assessment Items (Case Study/ Exercise Assignment/ Quiz etc.)
Week-01	Course Orientation ○ Introduction Activity ○ Discussion about contents, policies etc.	
Week-02	Communication Process ○ Nature of the Communication ○ Communication Model ○ Characteristics of Communication ○ Formal /Informal ○ Written/Spoken ○ Channels of Communication Verbal Communication ○ Language ○ Characteristics of Language ○ Relationship between Language and Meaning	
Week-03	Nonverbal Communication ○ Characteristics of Nonverbal Communication ○ Types of Nonverbal Communication ○ Improving Nonverbal Communication Common Sentence Errors ○ Subject Verb Agreement	Quiz-1 Content Quiz

Week-04	Developing an Effective Oral Presentation ○ Do's and Don'ts of Effective Presentations Common Sentence Errors ○ Use of Apostrophe	Quiz-2 (SVA)
Week-05	Presentation #1	<u>Assignment-1</u>
Week-06	Sessional I	
Week-07	Sounds of English Language ● How to improve Pronunciation ● Introduction to Phonology and its significance ● The Consonants of English ● The Vowels of English	
Week-08	Listening and Critical Thinking ● Listening v/s Hearing ● The process of listening ● Barriers to listening ● Ways to become a better listener	
Week-09	Vocabulary development ○ Context Clues ○ Using Word Parts Common Sentence Errors ○ Run-on Sentences & Comma Splice ○ Sentence Fragments	Quiz- 3 Listening Assignment-2
Week-10	Critical Reading Skills ○ Interpreting the Writer's message and Purpose ○ Connotative Meaning ○ Implied Meaning ○ Figurative Language ○ Author's Purpose ○ Tone ○ Language ○ Value Judgments	Quiz-4 Grammar + Vocabulary
Week-11	Evaluating: Asking Critical Questions ○ Source	

	○ Authority ○ Is the Author Biased ○ Is the Writing Slated Common Sentence Errors ○ Misplaced and Dangling Modifiers ○ Sentence Fragments	
Week-12	Sessional-II	
Week-13	Oral Presentation (Short 1 minute presentation)	Quiz-5 Listening Assignment-3
Week-14	Writing a Review Response (1-2 Paragraphs) ○ Opinion Writing ○ Disagreeing respectfully ○ How to share your opinions and justify perspective logically ○ Using evidence to support your ideas Conditional Sentences	
Week-15	Final Project Presentations	<u>Final Project</u>
Week-16	Final Project Presentations	<u>Final Project</u>

Additional Policies for the Course

Google Classroom

- Join the Google Classroom for your section.
- Updates are posted on GCR. It is your responsibility to keep track of respective submissions and any course updates.
- Please remember to 'Turn In' your work. It is your responsibility to confirm whether your work is submitted or not.

Attendance Policy

- 80% attendance is mandatory for one to be eligible to sit for the Final Exam.
- Students arriving after 10 minutes, after the class starts will be marked absent.
- Students arriving within the first 10 minutes after the initial attendance will be marked late.

Submission Guidelines

- Late submissions will **not** be considered. Keep track of the given deadlines.
- Manage your time effectively as you know how much time is required to complete and upload an assignment.

Email Correspondence

- i. Use your official email ID for corresponding with your instructors.
- ii. Provide complete information like name, student id and which section you are writing from.
- iii. Emails will be replied back to within 12-24 hours during the workdays.
- iv. Kindly read your email before you click the send button. Your email is representative of your professional identity.
